## VALUABLE FARM PROPERTY FOR SALE.

Property is located only about one and one-quarter miles from the city and near school. This is one of the best properties in the vicinity to make money on. Owing to its location, the highest prices are always realized from the produce. The income from the dairy alone exceeds \$2,000.00. With the farm will be sold all the personal property, including stock, tools and produce. There is probably over \$3,000.00 worth of personal property on the place. Good apple orchard, also a large sugar orchard. This property has to be seen to be appreciated and will not remain on the market long at the price we offer it, which is \$7,000.00. ## ABOUT THE STATE.

### Items of Interest Gleaned From Our Exchanges.

Probably the oldest male resident of Bennington county is J. M. C. Dodge, of Dorset, who will be 94 years old in a few days. He is in the best of health and well preserved, both mentally and physically.

Abram Garfield, son of the late President Garfield and a well-known architect of Cleveland, Ohio, has been in Bennington recently in company with Edward M. Harvey, who is about to make some changes and repairs on his summer residence.

The Rev. Guy C. Lamson and E. H. Chase of Montpelier have gone to Lowell, Mass., to make arrangements for shipping the bell which has been used for several years in a Baptist church in that city to Montpelier, where it is to be hung in the belfry of the First Baptist church.

In spite of the efforts of City Health Officer Edgar B. Moore of Rutland to stamp out the epidemic of whooping cough that has gained a foothold among the smaller children in the public schools, the disease appears to be on the increase. There were fifteen new cases reported Saturday and Sunday. This makes a total of thirty cases that have occurred so far.

Londonderry Sifter to Change Hands.

Announcement is made by the proprietor of The Londonderry Sifter that the property and good will of The Sifter has been sold or more properly, perhaps, has been bargained for, possession to be given at the expiration of its 21st year, which occurs December 1. It will then go into younger hands. This action is taken owing to the age of the owner, who could hope to run it only a few years more. Having a chance to dispose of it, he thought best to avail himself of the opportunity rather than wait, running the risk of a forced sale. The name of the incoming proprietor is withheld for the present at his request.

The Northern Bluetongue.

In one unbroken nocturnal flight the European bird known as the northern bluetongue has been proved to travel from central Africa to the German ocean, a distance of 1,000 miles, making the journey in blue hours.

Short Time Crops.

In parts of Norway and Sweden, where during the summer there is almost continuous daylight, only some six to eight weeks' interval elapses between the sowing of barley and the harvest time.

Great Dome of Paper.

The dome of the observatory at Greenwich, which weighs twenty tons, is made chiefly of paper.

The Ink Plant.

The ink plant of New Granada is a curiosity. The juice of it can be used as ink without any preparation. At first the writing is red, but after a few hours it changes to black.

ESTATE OF GEORGE BREMER.

STATE OF VERMONT. In Probate Court, District of Washington, ss. held at Montpelier, in and for said District, on the 1st day of November, A. D. 1904.

George Young, administrator of the estate of George Bremer, late of the City of Barre, in said District, deceased, presents his administration account for examination and allowance, and makes application for a decree of distribution and partition of the estate of said deceased. Whereupon it is ordered by said Court that said account and said application be referred to a session thereof, to be held at the Probate Office, in said Montpelier, on the 29th day of November, A. D. 1904, for hearing and decision thereon. And, it is further ordered, that notice thereof be given to all persons interested, by publication of the same three weeks successively in the Barre Daily Times, a newspaper published at the City of Barre, in this State, previous to the said time appointed for hearing, that they may appear at said time and place, and show cause, if any they may have, why said account should not be allowed and such decree made.

## HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, pediment, dye matter or dangerous drugs. It always itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
